## **DETAILED ACTION**

### ***Drawings***

Figures 66 and 67 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 16, line 5, it is unclear as to what is meant by the term “associated”. How is the wiper blade “associated” with the gap? Relative to lines 6-7, it is unclear as to whether all the wipes are in this position while in use, i.e. all the wipes having their first portion inside the dispenser and their second portion outside the dispenser at one time.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-25 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 5,660,313 to Newbold.

Newbold discloses a dispenser<sup>5</sup> system for wipes comprising: a dispenser; a wiper blade 56; wipes, the wipes comprising a contained agent; and a gap in the dispenser; the wipes are capable of being positioned through the gap; the dispenser is secured to a conventional dry bath tissue dispenser and at least one surface by means of the mounting assembly (see Figure 1).
